

My Influential Relative

Info

My relative is named Jessica. My cousin is in school and she is trying to be a doctor. Jessica was born on July 17th, 1992. She graduated college in summer of 2015. My cousin lives in Chicago on the south side because that's where her school is located. My cousin wants to be a doctor because she wants to be successful and she loves helping other people. When she graduated college, she got a medal/ honor reward because she was best in her science class. She also got a application to a good college for being a doctor.
